Google Cloud

Showcase your work

Congratulations on earning your Google Cloud Cybersecurity Certificate! Now it's time to let the world know about the skills you gained to help advance your career and share some of the artifacts you created along the way. We recommend adding the completion of this certificate to your resume and LinkedIn profile. Read on and follow these tips to get started.

Add the Google Cloud Cybersecurity Certificate to your resume and LinkedIn profile

You may have already started on a resume earlier in the certificate. If not, there are a variety of digital templates for creating your resume available at Enhancv, Big Interview, or Google Docs. You can find additional resume creation guidance in the Applied Digital Skills: Start a resume guide.

Update your Education or Licenses and Certifications section

- To add the completion of this certificate to your resume, update your *Education* or *Licenses & Certifications* section.
- To add the completion of this certificate to the *Licenses & Certifications* section of your LinkedIn profile, follow the steps listed in this article.

Review this example of how you might format your resume's education section:

Google Cloud Cybersecurity Certificate, 2024; Associate of arts, KC Community College, Central, IL 2018

Update your Skills section

- If applicable, update the *Skills* section of your resume.

- To update the **Skills & Endorsements** section of your LinkedIn profile, follow the steps listed in this article.

Update your Summary or About section

- If you have a **Summary** section in your resume, you can include this certificate as a qualification.
- To include a summary that mentions this certificate in your LinkedIn profile, update your **About** section by following the steps listed in this article.

Here is an example of a professional summary:

Entry-level cloud cybersecurity analyst seeking a full-time role. Recently completed the Google Cloud Cybersecurity Certificate—a multi-month cloud cybersecurity program that covers skills necessary to plan, configure, document, and monitor cloud security solutions.

Professional Summary

Entry-level cloud cybersecurity analyst seeking a full-time role. Recently completed the Google Cloud Cybersecurity Certificate—a multi-month cloud cybersecurity program that covers skills necessary to plan, configure, document, and monitor cloud security solutions.

Add your badge
